ANNEXURE A

Employing Service (Where you have worked/are working)	Position/Rank (Held or are holding)	Date		Primary Functions (What you were/are doing)
		From	To	

ANNEXURE: B

C.V. - FIRE FIGHTER 2, NFPA 1001, 2008 *Standard for Fire Fighter Professional Qualifications*

This CV should accompany your application for accreditation on the grounds of Recognition of Prior Learning for Fire Fighter 2 [Form: ACC 38].

Briefly describe your **Roll as Fire Fighter** in the following activities. Use all the headings listed below in your CV. The purpose of this is to be able to have a realistic impression of your experience to be able to assess your application fairly.

If you attended any courses related to the Criteria described in the CV, copies of the certificates can be attached.

This CV is required in addition to a certified copy of your Fire Fighting qualification or higher qualification.

Note: Please use additional paper if the space provided is not adequate.

1. Fire Department Communication.

- Discuss your involvement in the completion of a basic incident report, given the report forms, guidelines, and information, so that all pertinent information is recorded, the information is accurate, and the report is complete, as per NFPA 1001, 6.2.1

- Discuss your involvement in the communicating the need for team assistance at a fire incident, given fire department communications equipment, SOPs, and a team, so that the supervisor is consistently informed of team needs, departmental SOPs are followed, and the assignment is accomplished safely, as per NFPA 1001, 6.2.2

2. Fireground Operations.

- Discuss your involvement in the extinguishment of an ignitable liquid fire at a fire related incident, operating as a member of a team, given an attack line, personal protective equipment, a foam proportioning device, a nozzle, foam concentrates and a water supply, so that the correct type of foam concentrate is selected for the given fuel and conditions, a properly proportioned foam stream is applied to the surface of the fuel to create and maintain a foam blanket, fire is extinguished, reignition is prevented, team protection is maintained with a foam stream, and the hazard is faced until retreat to safe haven is reached, as per NFPA 1001, 6.3.1

- Discuss your involvement in the coordination of an interior attack line for team's accomplishment of an assignment in a structure fire, given attack lines, personnel, personal protective equipment, and tools, so that crew integrity is established; attack techniques are selected for the given level of the fire (e.g., attic, grade level, upper levels or basement); attack techniques are communicated to the attack teams; constant team coordination is maintained; fire growth and development is

continuously evaluated; search, rescue, and ventilation requirements are communicated or managed; hazards are reported to the attack team; and incident command is apprised of changing conditions, as per NFPA 1001, 6.3.2

- Discuss your involvement in the controlling of a flammable gas cylinder fire, operating as a member of a team at a fire related incident, given a cylinder outside of a structure, an attack line, personal protective equipment, and tools, so that crew integrity is maintained, contents are identified, safe havens are identified prior to advancing, open valves are closed, flames are not extinguished unless the leaking gas is eliminated, the cylinder is cooled, cylinder integrity is evaluated, hazardous conditions are recognized and acted upon, and the cylinder is faced during approach and retreat, as per NFPA 1001, 6.3.3

- Discuss your involvement in the protection of evidence of fire cause and origin at a fire related incident, given a flashlight and overhaul tools, so that the evidence is noted and protected from further disturbance until investigators can arrive on the scene, as per NFPA 1001, 6.3.4

3. Rescue Operations.

- Discuss your involvement in the extrication of a victim entrapped in a motor vehicle as part of a team at rescue incident, given stabilization and extrication tools, so that the vehicle is stabilized, the victim disentangled without further injury, and hazards are managed, as per NFPA 1001, 6.4.1

- Discuss your involvement in the assisting of rescue operation teams at a related incident, given the necessary rescue equipment, and an assignment, so that procedures are followed, rescue items are recognized and retrieved in the time as prescribed by the AHJ, and the assignment completed, as per NFPA 1001, 6.4.2

4. Prevention, Preparedness, and Maintenance.

- Discuss your involvement in the performing of a fire safety survey in a private dwelling, given survey forms and procedures, so that fire and life safety hazards are identified, recommendations for their correction are made to the occupant, and unresolved issues are referred to the proper authority, as per NFPA 1001, 6.5.1

- Discuss your involvement in the presentation of fire safety information to station visitors or small groups, given prepared materials, so that all information is presented, the information is accurate and questions are answered or referred, as per NFPA 1001, 6.5.2

- Discuss your involvement in the preparation of a pre-incident survey, given forms, necessary tools and an assignment, so that all required occupancy information is recorded, items of concern are noted, and accurate sketches or diagrams are prepared, as per NFPA 1001, 6.5.3

- Discuss your involvement in the maintenance of power plants, power tools, and lighting equipment, given tools and manufacturer's instructions, so that equipment is clean and maintained according to manufacturer and departmental guidelines, maintenance is recorded, and equipment is placed in a ready state or reported otherwise, as per NFPA 1001, 6.5.4

- Discuss your involvement in the performing of an annual service test/s on fire hose, given a pump, a marking device, pressure gauges, a timer, record sheets, and related equipment, so that procedures are followed, the condition of the hose is evaluated, any damaged hose is removed from service, and the results are recorded, as per NFPA 1001, 6.5.5
