Standard on Fire Apparatus Driver/Operator Professional Qualifications

This CV should accompany your application for accreditation on the grounds of Recognition of Prior Learning for Fire Apparatus Driver/Operator [Form: ACC 138].

Briefly describe your **Role as Fire Apparatus Driver/Operator** in the following activities. Use all the headings listed below in your CV. The purpose of this is to be able to have a realistic impression of your experience to be able to assess your application fairly.

If you attended any courses related to the Criteria described in the CV, copies of the certificates can be attached.

This CV is required in addition to a certified copy of your Fire Apparatus Driver/Operator Qualification or higher qualification.

Note: Please use additional paper if the space provided is not adequate.

1. General.

Discuss performing routine tests, inspections, and servicing functions on the systems and components specified in the following list, given a fire department vehicle, its manufacturer's specifications, and policies and procedures of the jurisdiction, so that the operational status of the vehicle is verified:

2. Operations.

- Discuss your involvement in documenting the routine tests, inspections, and servicing functions, given maintenance and inspection forms, so that all items are checked for operation and deficiencies are reported

- Discuss your involvement in the operation of a fire apparatus, given a vehicle and a predetermined route on a public way that incorporates the maneuvers and features that the driver / operator is expected to encounter during normal operations, so that the vehicle is operated in compliance with all applicable state and local laws and departmental rules and regulations

- Discuss your involvement in backing a vehicle from a roadway into restricted spaces on both the right and left sides of the vehicle, given a fire apparatus, a spotter, and restricted spaces 12 ft (3.7 m) in width, requiring 90-degree right-hand and left-hand turns from the roadway, so that the vehicle is parked within the restricted areas without having to stop and pull forward and without striking obstructions.

- Discuss your involvement in maneuvering a vehicle around obstructions on a roadway while moving forward and in reverse, given a fire apparatus, a spotter for backing, and a roadway with obstructions, so that the vehicle is maneuvered through the obstructions without stopping to change the direction of travel and without striking the obstructions

- Discuss your involvement in the turning of a fire apparatus 180 degrees within a confined space, given a fire apparatus, a spotter for backing up, and an area in which the vehicle cannot perform a U-turn without stopping and backing up, so that the vehicle is turned 180 degrees without striking obstructions within the given space.

- Discuss your involvement in the maneuvering of a fire apparatus in areas with restricted horizontal and vertical clearances, given a fire apparatus and a course that requires the operator to move through areas of restricted horizontal and vertical clearances, so that the operator accurately judges the ability of the vehicle to pass through the openings and so that no obstructions are struck

- Discuss your involvement in Operating a vehicle using defensive driving techniques, given an assignment and a fire apparatus so that control of the vehicle is maintained.

- Discuss your involvement in operation of all fixed systems and equipment on the vehicle not specifically addressed elsewhere in this standard, given systems and equipment, manufacturer's specifications and instructions, and departmental policies and procedures for the systems and equipment, so that each system or piece of equipment is operated in accordance with the applicable instructions and policies
