Tlokwe Certification Investigation Concluded

The Southern African Emergency Services Institute NPC have concluded its investigation and validation of student documentation with regards to presented courses for which no class source documentation (Final Results and Moderators Report) could be provided by Tlokwe Training Provider.

A list of students as per indicated courses has been validated against required documentation.

The Southern African Emergency Services Institute NPC hereby considers this matter to be concluded and finalised in full. No correspondence, engagements other than that to do with application for certificates where students qualify, or further submissions of “new” supporting documentation, beyond the scope of this communique will be entered into or considered.

All effected students whose accreditation has been place on hold as a result of this process is hereby requested to contact Tlokwe or SAESI Head Office for further assistance.

Yours Faithfully

Salome van den Berg
