Explanation of the Fee Structure:

All NFPA/IFSAC certificates issued prior July 2020 was issued with a golden “sticker” IFSAC seal. Each golden seal has a unique seal number registered on an applicant’s ID number. Only one (1) seal number, per NFPA Level, is allowed to be registered per person’s ID number. Upon application for reprint of NFPA/IFSAC Certificate(s), a new seal must be registered on the applicant’s ID number. The applicant’s previous seal number will be de-registered and a new seal number be registered on the ID number of the applicant. Since July 2020, all golden IFSAC seals, issued by SAESI, have changed to digital seals, which means that your “new” certificate will not have any “sticker” seals anymore. The applicant will be issued with a digital seal that will have a different seal number than the previously issued “sticker” seal number.

- New certificates must be designed, therefore will an administration fee be charged.
- A new IFSAC seal must be issued, therefore will a fee be charged for a new seal.

Payment Details for Certificates issued prior July 2020

-  An administration fee of R 180-00 applies for each level applying for.
This fee is the same for members and non-members.
-  Certification Fee per Certificate (Seal) is R395-00.
This fee is the same for members and non-members.

Payment Details for Certificates issued post July 2020

-  Certification Fee per Certificate is R50-00
This fee is the same for members and non-members.

SAESI Legacy Qualification

-  Certification Fee per Certificate is R395-00.
This fee is the same for members and non-members.

A Surcharge of R600-00 will apply for any candidate who insist on immediate certification where the application was submitted in person by hand.

This service does not apply to the SAESI LEGACY QUALIFICATIONS.

Fees does not include delivery (Courier), ADDITIONAL fees will apply

Use GAP which is short for General Application and your id number as reference i.e.,
GAP 000000000000
